RE: 2018-361-S  
Application by Carolina Water Service to charge individual  
customers the cost of cleaning and accessing interceptor  
tanks.

Dear Public Service Commission:

Forty Love Point Homeowners' Association should be allowed to intervene in this matter. We are one of the few neighborhoods within the Carolina Water Service system that uses a LETTS system for sewage and wastewater removal.

Without the opportunity to intervene, we will not be able to argue or negotiate any settlement. As it is now, there is no party to this action which is familiar with the situation in our neighborhood.

The Office of Regulatory Staff has agreed to parts of CWS's proposal to charge each customer, but they have done so without consulting with the residents at Forty Love Point, myself, or the president of our homeowners' association. I am always available to discuss matters with the ORS.

We have new attorneys working as the South Carolina Consumer Advocates, but allegedly they are not up to speed on matters relating to water and sewer service.

Please allow Forty Love to intervene in this case.

Sincerely,

/s/ Laura P. Valtorta
